

Sharan Deepak R B

+91 9940579219 | sharandeepak32@gmail.com | Github | LinkedIn | Leetcode

Backend-focused Software Engineer with **3 years** of experience building and scaling **0→1** product features for **300,000+ active users**. Strong in **Backend Architecture**, API design, Database Modeling, and **performance optimization**, with end-to-end ownership of production systems and experience mentoring small teams.

Experience (2.5 Years)

SurveySparrow, *Software Developer* | Chennai, India

June 2023 - Present

- Led backend development for employee engagement products used by **300,000+ active users** across **250+ paying customers**, including enterprise deployments serving up to **50,000 employees**.
- Increased backend repository **AI Agent Readiness from 0% to 85%** by designing LLM-friendly rules, hooks, and sub-agent workflows, and led internal sessions to help engineers automate day-to-day development tasks using LLMs.
- Built and launched the **One-on-Ones** module from **0→1** by owning the architecture, API design, database schema, backend services, and production rollout end-to-end.
- Developed a **Reward Marketplace** by implementing redemption workflows, voucher lifecycle management, and third-party vendor integrations for a production system operating at scale.
- Reduced dashboard loading time by **60%** by replacing SQL-heavy workflows with optimized **ElasticSearch** queries.
- Increased portal engagement by approximately **40%** by building Slack-based workflows powered by webhooks and event-driven backend integrations.
- Mentored engineers in a **3-person team** by guiding implementation, reviewing contributions, and driving delivery across mobile and backend initiatives.

Growfin, *Backend Development Intern* | Chennai, India

Jan 2023 - June 2023

- Built an internal SDK to streamline communication with CRM services, improving integration consistency across backend workflows.
- Developed cron-based automation, queue-driven processing, and cache-backed services to improve the reliability and efficiency of scheduled backend operations.

Zoho Corporation, *Summer Intern* | Chennai, India

May 2022 - June 2022

Education

BTech in Information Technology

Easwari Engineering College

CGPA - 9.0/10.0

2019 - 2023

Skills

Programming

TypeScript, PostgreSQL, Redis, ElasticSearch, C++, Java, Spring Boot, Flutter, SQL, DBMS, OOPS, Data Structures, Dart, HTML, CSS, JavaScript, Docker, REST API, Git

Projects

Goal Assist, Github Link | Demo Url

Aug 2025 - Oct 2025

- Built an AI-powered productivity platform to address a common team execution problem: developers often struggle to communicate progress clearly, while managers lack a reliable view to review, prioritize, and track work.
- Designed a manager dashboard that centralizes priorities, task progress, and execution signals, helping team leads make faster and more structured prioritization decisions.
- Automated status tracking through an **MCP-powered workflow** that captures developer activity and converts it into structured updates, reducing the need for manual task filling and repetitive standup reporting.

TicketWise, Github Link

Aug 2023 - Oct 2023

- Built backend services for an online ticket reservation system with a focus on concurrency handling, request reliability, and scalable service design.
- Improved request handling under concurrent traffic by introducing message-queue-based processing for asynchronous workflows.
- Reduced query latency by integrating **OpenSearch**-based retrieval patterns in place of slower traditional query flows.

Certifications

2022 **Full Stack Development with React & Node JS**, GeeksforGeeks

[Certificate Link](#)

2021 **Art of Ethical Hacking Through Programming**, SelfMadeNinja

[Certificate Link](#)

2021 **The Complete Android Development Bootcamp**, Udemy

[Certificate Link](#)

Honors/Awards

- 2023 **Received Bug Buster Award**, Growfin
- 2022 **Received Gold Medal From IG Of Southern Railways for developing smart attendance system**, Southern Railways
- 2022 **Secured 284th rank out of 24841 participants**, codechef march long challenge
- 2020 **Secured 3rd position out of 147 teams**, Tamil Nadu Police Hackathon
